About this CD-ROM

This CD-ROM is part of the series of publications which form the official statistics for the 1998 election held on 3 October 1998. This CD-ROM also includes statistics from the 1993 and 1996 elections.

The tables on this CD-ROM are supplied as:

- Microsoft Excel 5 files;
- tab-delimited text files;
- data import files.

The Microsoft Excel versions of the tables are fully formatted. The text versions of the tables are not formatted and in some cases contain more data than the Excel files. For example, for the House of Representatives first preference votes and TCP by candidate by division tables, there is a separate Excel file for each state. The corresponding text file contains the data for all of the states in one file. These two types of files are accessed under the headings 'General info', 'House of Reps' and 'Senate'.

The CD-ROM also includes six data import files for the use of clients who wish to build their own database for further analysis of the election statistics. These files are accessed under the heading 'Import files'.

The Election Statistics series

The Election Statistics series is the official publication of the results of the half-Senate and the House of Representatives elections held on 3 October 1998.

The 1998 Election Statistics series includes the publication of results in five printed volumes and this CD-ROM. The statistics published in the printed volumes contain national, state and divisional summary results. Detailed polling place results will be available only on the CD-ROM.

The five volumes in the printed series are:

Volume 1	National results
Volume 2	Divisional results – New South Wales
Volume 3	Divisional results – Victoria
Volume 4	Divisional results – Queensland
Volume 5	Divisional results – Western Australia, South Australia, Tasmania, Australian Capital Territory and Northern Territory
