TABLE NOTES: Nomination numbers by gender

Note on the Queensland Senate Election – 1998

At the declaration of the Queensland Senate election, Heather Hill (Pauline Hanson's One Nation) was elected to one of the six vacancies. Following a petition in the Court of Disputed Returns, Ms Hill was declared ineligible to stand under section 44 of the Constitution and a recount was ordered. At this recount, Mr Len Harris (Pauline Hanson's One Nation) obtained a quota and the Court subsequently declared him elected in place of Ms Hill. The other five candidates originally elected were also declared re-elected following this recount.

The results in this table reflect the result of the count before the Court found Ms Hill ineligible to stand. However, the table **result of the transfer and distribution of preferences** has been produced to provide the result before and after the recount was conducted.

TABLE NOTES: Votes counted by vote type: by division

Vote types

Information about the different vote types is available in [The Electoral Process](#).

Adjusted votes

For the 1993 and 1996 elections, an adjustment column is shown in this table. At these elections ballot papers for candidates were amalgamated for the whole division for rechecking and counting prior to the distribution and transfer of preferences. In some cases, this fresh scrutiny showed that an earlier count was in error. As it was not possible to identify where the error was made, the adjustment column accounts for these discrepancies between the earlier count and the final divisional total.

For the 1998 election, the scrutiny was conducted using a computerised scrutiny system. This system requires the input of ballot papers at a polling place level so the amalgamation of ballot papers did not occur and, therefore, no adjustment column is required in this table.

TABLE HELP: First preference votes by group: by state

1 The votes column shows:

- first preference votes obtained by each group or party listed and other, which includes independents and parties not listed separately
- the total formal and informal votes
- the total votes cast.

2 The percentage column shows:

- the first preference votes obtained by each group or party expressed as a percentage of the total formal votes
- the total formal and informal votes expressed as a percentage of the total votes cast
- the total votes cast expressed as a percentage of enrolment for the state, territory or the nation – also known as turnout.

3 The percentage swing for or against a group, party, formality, informality and turnout compared to the previous event.

4 The number of quotas or portion of the quota a group or party has obtained on first preference votes (this does not appear on the national table).

Group	Votes	%	Swing	Quota

TABLE NOTES: First preference votes by group: by polling place

Adjusted votes

For the 1993 and 1996 elections, an adjustment column is shown in this table. At these elections ballot papers for candidates were amalgamated for the whole division for checking and counting prior to the distribution and transfer of preferences. In some cases, this fresh scrutiny showed that an earlier count was in error. As it was not possible to identify where the error was made, the adjustment column accounts for these discrepancies between the earlier count and the final divisional total.

For the 1998 election, the scrutiny was conducted using a computerised scrutiny system. This system requires the input of ballot papers at a polling place level so the amalgamation of ballot papers did not occur and, therefore, no adjustment column is required in this table.

Note on the Queensland Senate Election – 1998

At the declaration of the Queensland Senate election, Heather Hill (Pauline Hanson's One Nation) was elected to one of the six vacancies. Following a petition in the Court of Disputed Returns, Ms Hill was declared ineligible to stand under section 44 of the Constitution and a recount was ordered. At this recount, Mr Len Harris (Pauline Hanson's One Nation) obtained a quota and the Court subsequently declared him elected in place of Ms Hill. The other five candidates originally elected were also declared re-elected following this recount.

The results in this table reflect the result of the count before the Court found Ms Hill ineligible to stand. However, the table **result of the transfer and distribution of preferences** has been produced to provide the result before and after the recount was conducted.

TABLE NOTES: First preference votes by candidate: by state

Ticket votes

Information about ticket voting can be found in [The Electoral Process – Counting the votes for the Senate](#). The [ticket votes](#) lodged by each group in the 1993, 1996 and 1998 elections are published on this CD-ROM.

Note on the Queensland Senate Election – 1998

At the declaration of the Queensland Senate election, Heather Hill (Pauline Hanson's One Nation) was elected to one of the six vacancies. Following a petition in the Court of Disputed Returns, Ms Hill was declared ineligible to stand under section 44 of the Constitution and a recount was ordered. At this recount, Mr Len Harris (Pauline Hanson's One Nation) obtained a quota and the Court subsequently declared him elected in place of Ms Hill. The other five candidates originally elected were also declared re-elected following this recount.

The results in this table reflect the result of the count before the Court found Ms Hill ineligible to stand. However, the table [result of the transfer and distribution of preferences](#) has been produced to provide the result before and after the recount was conducted.

TABLE NOTES: First preference votes by candidate: by vote type by division

Vote types

Information about the different vote types is available in [The Electoral Process](#).

Adjusted votes

For the 1993 and 1996 elections, an adjustment column is shown in this table. At these elections all ballot papers for a candidate were amalgamated for the division for rechecking and counting prior to the distribution and transfer of preferences. In some cases, this fresh scrutiny showed that an earlier count was in error. As it was not possible to identify where the error was made, the adjustment column accounts for these discrepancies between the earlier count and the final divisional total.

For the 1998 election, the scrutiny was conducted using a computerised scrutiny system. This system requires the input of ballot papers at a polling place level so the amalgamation of ballot papers did not occur and, therefore, no adjustment column is required in this table.

Ticket votes

Information about ticket voting can be found in [The Electoral Process – Counting the votes for the Senate](#). The [ticket votes](#) lodged by each group in the 1993, 1996 and 1998 elections are published on this CD-ROM.

TABLE NOTES (cont.): First preference votes by candidate: by vote type by division

Note on the Queensland Senate Election – 1998

At the declaration of the Queensland Senate election, Heather Hill (Pauline Hanson's One Nation) was elected to one of the six vacancies. Following a petition in the Court of Disputed Returns, Ms Hill was declared ineligible to stand under section 44 of the Constitution and a recount was ordered. At this recount, Mr Len Harris (Pauline Hanson's One Nation) obtained a quota and the Court subsequently declared him elected in place of Ms Hill. The other five candidates originally elected were also declared re-elected following this recount.

The results in this table reflect the result of the count before the Court found Ms Hill ineligible to stand. However, the table **Result of the transfer and distribution of preferences** has been produced to provide the result before and after the recount was conducted.

Australian Electoral Commission **Senate results**

TABLE HELP: First preference votes by candidate: by vote type by division

Candidates	Party	Ordinary		Absent		Provisional	
		Votes	%	Votes	%	Votes	%

SEATON, David		NLP	103	0.20	1	0.06	4	0.57
SKERBIC, Fred		IND	46	0.09	5	0.30	1	0.14
Ungrouped Total			441	0.84	20	1.21	9	1.29
		FORMAL	52811	96.98	1656	97.70	700	97.49
		INFORMAL	1643	3.02	39	2.30	18	2.51
		TOTAL	54454	78.77	1695	2.45	718	1.04

3 The votes column for each vote type shows:

- the number of first preference votes each grouped candidate has obtained for each vote type. The ticket votes shown for each group are counted as first preferences for the first candidate in the group. Therefore to calculate the total first preferences the first candidate in each group has obtained for that vote type you must add the ticket votes for the group to the votes shown against the candidates name.
- the total first preference votes that each group has obtained for each vote type
- the number of first preference votes each ungrouped candidate has obtained for each vote type
- the total first preference votes obtained by all the ungrouped candidates for each vote type
- the total formal and informal votes for each vote type
- the total votes cast for each vote type.

TABLE NOTES: First preference votes by candidate: by polling place

Adjusted votes

For the 1993 and 1996 elections, an adjustment column is shown in this table. At these elections ballot papers for candidates were amalgamated for the whole division for checking and counting prior to the distribution and transfer of preferences. In some cases, this fresh scrutiny showed that an earlier count was in error. As it was not possible to identify where the error was made, the adjustment column accounts for these discrepancies between the earlier count and the final divisional total.

For the 1998 election, the scrutiny was conducted using a computerised scrutiny system. This system requires the input of ballot papers at a polling place level so the amalgamation of ballot papers did not occur and, therefore, no adjustment column is required in this table.

Ticket votes

Information about ticket voting can be found in [The Electoral Process – Counting the votes for the Senate](#). The **ticket votes** lodged by each group in the 1993, 1996 and 1998 elections are published on this CD-ROM.

TABLE NOTES (cont.): First preference votes by candidate: by polling place

Note on the Queensland Senate Election – 1998

At the declaration of the Queensland Senate election, Heather Hill (Pauline Hanson's One Nation) was elected to one of the six vacancies. Following a petition in the Court of Disputed Returns, Ms Hill was declared ineligible to stand under section 44 of the Constitution and a recount was ordered. At this recount, Mr Len Harris (Pauline Hanson's One Nation) obtained a quota and the Court subsequently declared him elected in place of Ms Hill. The other five candidates originally elected were also declared re-elected following this recount.

The results in this table reflect the result of the count before the Court found Ms Hill ineligible to stand. However, the table **result of the transfer and distribution of preferences** has been produced to provide the result before and after the recount was conducted.

Australian Electoral Commission **Senate results**

1 The name of the division and the enrolment as at polling day.

2 The group name:

- if the group is endorsed by a registered party – the party name
- if the group is not endorsed by a registered party – 'Unendorsed Group'.

3 The names of the grouped candidates.

4 The polling place/facility name or declaration vote type.

5 For the 1993 and 1996 elections – the number of adjusted votes (see [Table Notes](#) for more information on adjusted votes).

TABLE HELP (cont.): First preference votes by candidate: by polling place

6 For each grouped candidate, the votes column shows:

- the number of votes obtained by each candidate at a polling place/facility or declaration vote type. The ticket votes shown for each group are counted as first preferences for the first candidate in the group. Therefore to calculate the total first preferences the first candidate in each group has

obtained at that polling place/facility or declaration vote type, you must add the ticket votes for the group to the votes shown against the candidate's name.

- the total number of ordinary votes obtained by each candidate at a polling place/facility or declaration vote type
- the total number of votes obtained by each candidate for that division (see above for an explanation of how the ticket votes are allocated to candidates).

TABLE HELP (cont.): First preference votes by candidate: by polling place

11 For each ungrouped candidate and the ungrouped total columns, the percentage column shows:

- the number of first preference votes for each ungrouped candidate and the ungrouped total expressed as a percentage of the formal votes for that polling place/facility or declaration vote type
- the total number of ordinary first preference votes for each ungrouped candidate and the ungrouped total total expressed as a percentage of the total ordinary formal votes
- the total votes for each ungrouped candidate and the ungrouped total expressed as a percentage of the total formal votes for the division.

12 For the ungrouped total columns, the votes column shows:

- the number of votes obtained by all ungrouped candidates at a polling place/facility or declaration vote type
- the total number of ordinary votes obtained by ungrouped candidates at a polling place/facility or declaration vote type
- the total number of votes obtained by ungrouped candidates for that division.

Queensland Senate election – 1998

At the declaration of the Queensland Senate election, Heather Hill (Pauline Hanson's One Nation) was elected to one of the six vacancies. Following a petition in the Court of Disputed Returns, Ms Hill was declared ineligible to stand under section 44 of the Constitution and a recount was ordered. At this recount, Mr Len Harris (Pauline Hanson's One Nation) obtained a quota and the Court subsequently declared him elected in place of Ms Hill. The other five candidates originally elected were also declared re-elected following this recount.

Results of the transfer and distribution of preferences tables have been produced to show the results before and after the recount ordered by the Court of Disputed Returns as a result of Ms Hill being ruled ineligible to stand as a candidate.

TABLE NOTES: Result of the transfer and distribution of preferences

Further details and information on the scrutiny of Senate votes is available in [The Electoral Process – Counting the votes for the Senate](#).

Results for a count or set of counts

Each table shows a series of counts divided into cells, with each cell representing a distinct stage of the scrutiny.

Preferences distributed when a candidate is excluded may be distributed over several counts, as an unsuccessful candidate may have received ballot papers at several different transfer values, and a separate count is conducted for ballot papers at each transfer value. When a candidate is excluded over several counts, the result of the exclusion is summarised and shown as a single column in one cell. The result of a bulk exclusion of several candidates at once is similarly shown in one cell.

Loss or gain by fraction

A loss by fraction arises because the multiplication process applied to give ballot papers their correct transfer value often results in fractional remainders which are required to be rounded downwards, thus producing a decrease in the total number of votes transferred or distributed to continuing candidates.

In the same way it is possible to have a gain by fraction, which is shown as a negative figure in the loss by fraction row.

TABLE HELP (cont.): Result of the transfer and distribution of preferences

- 8** The total number of votes transferred or distributed at a count or set of counts (see **Table Notes** for more information on counts).
- 9** The number of votes distributed to the remaining candidates from the candidate being excluded or whose surplus is being distributed. The candidate whose votes are being distributed has a minus figure in this column which is equal to the total votes available for distribution at this count. The votes can be surplus votes where a candidate has been elected and has a surplus over the quota, or all the votes a candidate has where that candidate has been excluded.

Note on the Queensland Senate Election – 1998

At the declaration of the Queensland Senate election, Heather Hill (Pauline Hanson's One Nation) was elected to one of the six vacancies. Following a petition in the Court of Disputed Returns, Ms Hill was declared ineligible to stand under section 44 of the Constitution and a recount was ordered. At this recount, Mr Len Harris (Pauline Hanson's One Nation) obtained a quota and the Court subsequently declared him elected in place of Ms Hill. The other five candidates originally elected were also declared re-elected following this recount.

The results in this table reflect the result of the count before the Court found Ms Hill ineligible to stand. However, the table [Result of the transfer and distribution of preferences](#) has been produced to provide the result before and after the recount was conducted.
